

TRING SCHOOL PHYSICAL EDUCATION

HOMWORK EXPECTATIONS FOR PUPILS AND PARENTS

The Physical Education Department supports the principles and guidelines contained within the Tring School Home Learning Policy.

At KS4 and 5 pupils can expect to get at least one homework per week task and one test on subject content every four weeks (dependant on the length of the topic taught.) Homework will usually be past examination questions or research tasks. For end of topic tests, any pupil obtaining a result lower than their target grade will be required to re-do part or the entire test.

In addition to the above there are also likely to be other occasional exercises such as note taking, presentation preparation etc.

At KS5 there is also an expectation that students are aware of what is happening in the sporting world. This can be done by reading the sports sections of quality news papers, watching appropriate TV programmes such as the Inside Sport, perusing topical sporting websites and/or reading Physical Education journals/magazines such as PE Review. Newspapers and journals are available in the School's Learning Centre.
